Date: 2002-03-15

ISO/TC 194/WG 12 Sample preparation and reference materials

**BRIEF MINUTES AND PROGRESS ACHIEVED AT THE MEETING IN BERLIN;
GERMANY; ON 14 MARCH 2002**

The meeting was attended by 28 delegates from 10 countries.

The meeting was chaired by Mr. Donald Marlowe.

WG 12, in a general discussion, reviewed the comments received on the recent DIS voting of ISO 10993-12. All comments were discussed. Editorial changes were made. The document is ready for publication.

During the discussion, several topics were identified which would be included in further revision of the standard. WG 12 will initiate a New Work Item Proposal to address these proposals. The delegates to ISO/TC 194 are encouraged to be attentive to this NWIP and to solicit suggestions for further revision of Part 12 from their National Bodies.
